

SBAP46ME / 72ME / 82ME

The vertical stacker delivery

Features

Standard features:

- Machine control M1 Basic
- Mobile
- Sheet spreading
- Counter for delivered sheets
- SBAP72ME and SBAP82ME: equipment for two-up production
- Integrated pressing station

Optional features:

- Machine control M1 Advanced
- SBAP46ME: equipment for two-up production
- SBAP46ME: automatic feeder stop return with sheet infeed stop for one-up production
- SBAP72ME/SBAP82ME: extension to three-up or four-up production

- SBAP72ME/SBAP82ME: automatic feeder stop return with sheet infeed stop for two-up or three-up production

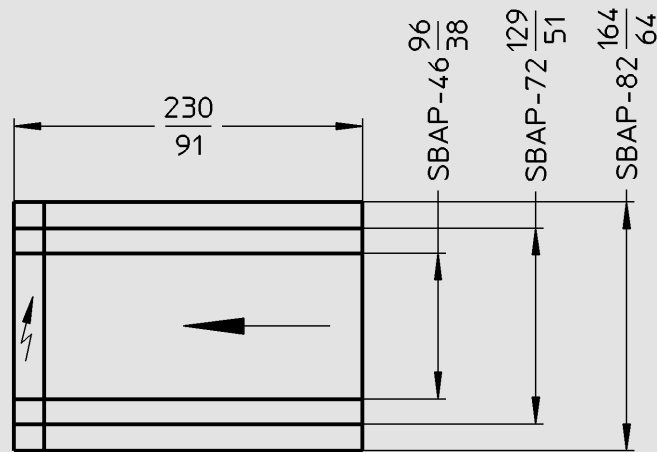

Benefits:

- Pressing station for perfectly pressed folded products
- Marking device for shifting in package
- Spreading of multiple-up streams facilitates sheet removal
- Large holding capacity due to vertical sheet delivery
- Printing sheets standing on their back to handle even unstable products
- Continuously height-adjustable pile table for ergonomic working height
